

List of Tables

Table 1. Sequence of IMP modules completed by each ability group at Suburban High School	94
Table 2. Implementation of Semestered Block Schedule and IMP Curriculum at Suburban High School	98
Table 3. Yearly Median National Percentile Rank on Educational Records Bureau CTP Quantitative Ability Test.....	110
Table 4. Difference Between Groups on Understanding and Solving Algebra Problems in Context.....	130
Table 5. Difference Between Groups on Understanding and Solving Algebra Problems in Context After Controlling for Grade 6 Test Scores	132
Table 6. Difference Between Groups on Algebraic Symbol Manipulation.....	135
Table 7. Difference Between Groups on Algebraic Symbol Manipulation After Controlling for Grade 6 Test Scores	136
Table 8. Difference Between Groups on Test 3, an Applied Algebra Task	140
Table 9. Difference Between Groups on Applied Algebra Task, Accounting for Pair Ability and Interaction (265 pairs for whom some ability estimate is available)...	145
Table 10. Difference Between Groups on Applied Algebra Task, Accounting for Pair Ability (265 pairs for whom some ability estimate is available)	146
Table 11. Difference Between Groups on Applied Algebra Task, Accounting for Pair Ability and Interaction (157 pairs for whom most accurate ability estimate is available).....	150
Table 12. Scores on Evaluating Expressions	162

Table 13. Scores on Simplifying Expressions with Integer Coefficients	164
Table 14. Scores on Simplifying Fractional Expressions	165
Table 15. Scores on Solving Linear Equations, without Context or Access to Calculators	166
Table 16. Scores on Solving Linear Equations in Context Error! Bookmark not defined.	
Table 17. Scores on Solving Quadratic Equations Presented without Context or Use of Graphing Calculators	169
Table 18. Percent of Students Showing a Good Understanding of Problems Involving Quadratic Equations Presented in Context, with Access to Graphing Calculators.	171
Table 19. Achievement in Solving Quadratic Equations, Reported by Highest Level Algebra Course Student Enrolled in Through 11 th Grade.....	174
Table 20. Scores on Translating the Graph of a Line into an Equation.....	181
Table 21. Opportunity to Learn: Scores on Translating the Graph of a Line into an Equation for Reform Cohort Students who Completed Relevant Modules.....	182
Table 22. Scores on Interpreting and Translating Line Graphs	185
Table 23. Scores on Translating an Exponential Function	186
Table 24. Ability to Translate an Exponential Function to an Equation	188
Table 25. Difference Between Groups on Mathematical Formulation.....	190
Table 26. Difference Between Groups on Interpreting Algebraic Models.....	192
Table 27. Average Number of Hours Each Student Was Enrolled in Mathematics Class, Traditional vs. Reform Groups	201

Table 28. Total Hours Enrolled in High School Mathematics for Traditional vs. Reform Groups.....	202
Table 29. Difference Between Groups on Mean Hours Enrolled in Advanced Mathematics Classes.....	209
Table 30. Total Hours Enrolled in Advanced Mathematics Courses for Traditional vs. Reform Groups.....	210
Table 31. Advanced Placement Mathematics Course Enrollment by School Year and Grade Level.....	216
Table 32. Advanced Placement Exam Grades by School Year and AP Mathematics Course	221
Table 33. Advanced Placement Calculus BC Exam Grades by School Year.....	224
